ABOUT ME

I am an experienced Software Engineer with five years in the industry. My goal is to further my education through a master's degree, where I can apply my technical skills and passion for innovation. I am committed to academic excellence and eager to contribute to groundbreaking projects.

WORK EXPERIENCE

05/2024 – CURRENT Kabul, Afghanistan
SENIOR SOFTWARE ENGINEER RAMAKI GROUP OF COMPANIES

My responsibilities at the Ramaki Group of Companies are as follows:
1. Database Analysis and Design.
2. Develop API & Backend Logic: Building RESTful APIs and GraphQL APIs.
3. Database Interaction: Writing queries and interacting with databases.
4. Testing: Writing unit, integration, and feature tests.
5. Package Development & Management: Developing, Installing, and managing packages.

24/09/2022 – 04/2024 Kabul, Afghanistan
SOFTWARE ENGINEER PEACE GLOBAL LOGISTICS

My responsibilities were as follows:
1. Designing and creating reusable Frontend components
2. Developing Rest Full APIs
3. Designing and analyzing databases
4. Hosting and server maintenance

26/07/2021 – 20/09/2022 Kabul, Afghanistan
WEB DEVELOPER SMART FRIQI

I was working at Smart Friqi as a Web developer at Smart Friqi company which was a sub-company of Teebalhoor commercial broker company based in UAE. My responsibilities were as follows:
1. Designing and creating reusable Frontend components
2. Developing Rest Full APIs
3. Adding Real-time functionality to web applications

01/05/2021 – 15/07/2021 Kabul, Afghanistan
WEB DEVELOPER TWISTEDBITS ICT

In this short period, I have built two web applications with the TwistedBits team. These applications were management information systems, and those projects were built in Php and Javascript languages with technologies and frameworks such as Laravel, and Vue.js.
